

Mixed Extraction Test - Native Page One

This first page carries a real embedded text layer and is read directly by PyMuPDF without any optical character recognition. Its marker phrase is NATIVE ALPHA MARKER.

MIXED TEST - SCANNED PAGE TWO

This page is an image with no text layer.

Its marker phrase is SCANNED BRAVO MARKER.

MIXED TEST - SCANNED PAGE THREE

This page is also an image only page.

Its marker phrase is SCANNED CHARLIE MARKER.

Mixed Extraction Test - Native Page Four

The final page returns to embedded text so a single document exercises both extraction paths at once.

Its marker phrase is NATIVE DELTA MARKER.
